Section 1. Assessments.

The Sewer Commission shall have the power as set forth in M.G.L.c.83 section 15, when ascertaining assessments as a betterment for construction, to apply a rate based upon a uniform unit method. A uniform unit method shall be based upon sewerage construction costs divided among the total number of existing and potential sewer units to be served after having proportioned the cost of special and general benefit facilities.

(b) Assessments under this section shall be ascertained, assessed, certified and committed to the Town Treasurer by the Sewer Commission. Such assessments may be made for all sewers, lateral sewers, pump stations and appurtenant works. Sewer betterment assessments and any sewer betterment policies which are adopted by the Town under M.G.L.c.80 and M.G.L.c.83 for particular public sewer construction projects shall follow the procedures set out herein below.

(1) The Town of Lunenburg shall assess sewer betterments based upon a uniform unit method. Each unit shall be equal to a single-family residence. Multiple family buildings and non-residential buildings as described herein shall be converted into units on the basis of residential equivalents. The total assessment for a particular sewerage construction project shall not be based on or limited by an estimated betterment. Revenue generated by said betterment assessment shall be equal to or shall cover the total project costs associated with design and construction of the sewers and pumping station, and appurtenant work.

(2) The Town shall levy assessments against all properties abutting a sewer street after acceptance of the entire pertinent construction contract(s) including finalization of all pertinent contractual documents. The date of acceptance shall be determined by the Sewer

Commission. In the order of assessment, the Town shall designate the owner of each parcel on the preceding January 1st as liable for assessment under the provisions of the General Laws.

(3) For assessment purposes, all properties receiving direct benefit from the sewerage system shall be converted into sewer units. Properties receiving direct benefit, either developed or undeveloped, shall be designated a number of sewer units under the following guidelines:

1. Single-family dwellings shall comprise one (1) sewer unit.

b. Residential condominium complexes shall be assessed one (1) sewer unit for each dwelling unit.

(4) Subdivisions shall be assessed one (1) sewer unit for each buildable lot except that a subdivision which pursuant to subdivision regulations of the Town of Lunenburg agreed to install and by the appropriate assessment date for betterments has actually installed a dry system in said subdivision shall not be assessed a sewer betterment fee per lot but shall be assessed a sewer privilege fee as set by Section 2 herein below. Certain lots not involving actual subdivision shall also be assessed as provided in Section 3(c) herein below.

(5) a. Non-residential buildings, which shall include all industrial, commercial and municipal properties, shall comprise a number of sewer units based upon water consumption as follows: Sewer units = Non-residential water usage (gpd) / 300 (gpd). (Rounded up to the next whole number.) Non-residential buildings not metered for water use shall be assigned a water consumption volume based on Title 5 (Part 2, Section 13) of the State Environment Code of the Commonwealth of Massachusetts, Minimum Requirements for the Subsurface Disposal of Sanitary Sewage.

(5) b. When a single structure or building contains a non-residential use and a residential use and neither use is accessory to the other and the non-residential use does not receive municipal water service, such mixed use structure shall be charged a betterment only for the residential unit or use. This provision shall not apply in the following zoning districts as defined in the Town zoning by-law:

Retail Commercial; Commercial; Office Park and Industrial.

(6) Undeveloped residential lots shall be converted into dwelling units on the basis of maximum number frontage and area requirements as directed in the zoning by-law in effect at the time of assessment. Each potential dwelling unit shall then comprise one (1) sewer unit; the owner of an undeveloped lot may apply pursuant to M.G.L.c. 83 section 19 to extend the time for payment as provided in Section 4 herein below. In addition, land classified as agricultural, horticultural, recreations, or forest land, upon the application of the owner, may have the betterment assessment suspended for so long as the land is devoted to that use pursuant to M.G.L.c. 61A section 18, M.G.L.c. 61B section 13, and M.G.L.c. 61 section 5.

(7) Undeveloped non-residential lots shall be converted into development lots on the basis of the maximum number of lots that may be created based upon the frontage and area requirements as required in the zoning bylaw in effect at the time of assessment. Each potential development lot shall then comprise one (1) sewer unit; The owner of an undeveloped lot may apply pursuant to M.G.L. c83 s19 to extend the time for payment as provided in Section 4 herein below. (c) Betterment payment.

Except as provided herein, the provisions of the General Laws relative to the assessment, apportionment, division reassessment, abatement and collection of sewer assessments shall apply. The Tax Collector of the Town of Lunenburg shall have all of the powers conveyed by the General Laws. In accordance with M.G.L.c. 80 section 12, assessments made shall constitute a lien upon the land assessed until the full balance is paid. At the time of assessment, a property owner may select a payment schedule over a period of ten (10) years or twenty (20) years if they so specifically request. Once a selection has been made, the payment method may not be changed at a later date; however, the balance of the principal due on any lien may be paid in full at any time.

Upon the transfer of title to a new owner, the seller/transferor shall immediately notify the Town Treasurer/Collector and Town Assessors. After transfer of title, the betterment lien may be transferred. The betterments may be paid in full to the collector's office without interest or charges within thirty (30) days of the date of assessment. (d) Abatements and deferrals.

(1) Unbuildable lot. A property owner may request of the Building Inspector a formal written opinion which declares that under the then current Town zoning by-law, the lot(s) which have been assessed a sewer betterment is not buildable without issuance of one (1) or more variances under the applicable zoning by-law provisions. This letter must be filed permanently with the Building Inspector and with the Zoning Board of Appeals. Upon issuance of the opinion, the property owner may then file an application for abatement with the assessing board which shall include a certified copy of the building inspector's opinion and which shall require a notarized statement that the owner and any subsequent purchaser or their assigns or agents shall not apply for a variance to make the lot buildable.

A property owner may file a notice of intent to construct a dwelling with the Town Conservation Commission for one (1) or more lots that have been assessed a sewer betterment. Following the regular hearing procedures of the Conservation Commission for any such notice, if the commission issues a formal denial of the notice of intent to construct a dwelling, and if all such documents which are otherwise required by law to be filed with the Registry of Deeds have been so filed, then the property owner may file with the assessing board an appeal action for abatement so long as the owner did not appeal the denial. The appeal action shall include a certified copy of the denial of the notice of intent to construct a dwelling.

All such abatements that are issued by the assessing board under this Section 1(d)

(1) shall also be permanently filed with the offices of the Building Inspector and the conservation commission. All applications and orders or opinions issued under this section shall state that the property owner has voluntarily requested that the property be found unbuildable and that the property owner fully understands all consequences stemming from such determination.

(2) Age and income. A property owner may defer the betterment assessment as provided in M.G.L.c.80 section 13B, which has been accepted by the Town of Lunenburg, if they are

sixty-five (65) years of age or older and qualify under M.G.L. c.59 section 5, Clause 41A. However, the transfer of lien provision, Section 3(c), betterment payments, shall not apply to deferrals as provided for in this section, in compliance with M.G.L. c.80 section 13B.

Section 2. Compensatory Sewer Privileges Fee; increase in use of land.

Notwithstanding the over provisions of this Sewer Assessment By-Law, if a betterment has: (i) been assessed to a property based upon the estimated number of developable sewer units as required by this article or a sewer betterment policy adopted by the Sewer Commission and said property is ultimately developed to accommodate a number of sewer units in excess of the number estimated for determining the betterment assessment, and/or (ii) been assessed to a developed parcel and later in time the use of that parcel is increased to accommodate a number of sewer units in excess of the number estimated for determining the betterment assessment, then the Town shall assess a compensatory sewer privilege fee to reflect the increased use. This fee shall be equivalent to the amount that would have been charged as a betterment assessment upon the additional uses or units at the time of the original assessment. Apportionment of this fee shall be permitted only if specifically requested at the time of assessment and only for a period of ten (10) years or less. Apportioned sewer privilege fees shall bear interest at the same rate charged for the most recent Town sewer project betterments.

Section 3. Laying out and payment for particular sewers connecting with common sewer or main drain and sewer privilege fee.

(a) Whenever any land is connected with a common sewer or main drain laid out by the Sewer Commission in a public way, the Commission shall, at the expense of the Town, lay the particular sewer providing such connection from the common sewer or main drain to the boundary of the way. When a common sewer or main drain is constructed in a public way, the Sewer Commission may lay such particular sewers from the common sewer or main drain to the boundary of such way as may be necessary, in the opinion of the Sewer Commission, to connect land abutting on such way with such main drain or common sewer. The owner, of any land having direct access to a main drain or common sewer via a sewer constructed to the boundary of a public way as aforesaid, may make application to the Sewer Commission to connect any buildings on said land to the common sewer. Any such connection as may be approved by the Sewer Commission shall be in accordance with all rules and regulations as may be from time to time promulgated by the Sewer Commission.

(b) The owner, of any land benefited by the layout of a particular sewer from the common sewer to the boundary of the way, shall pay to the Town for the permanent privilege of using the same, such reasonable amount as the Sewer Commission may determine, under the provisions of M.G.L.c. 83 section 24 and; the amount so determined shall be assessed, certified and committed to the Town Treasurer by the Sewer Commission.

(c) Notwithstanding the provisions of Section 1 hereinabove and Sections 3(a) and (b), the owner(s) of a subdivision which pursuant to the regulations of the Planning Board who has/have been required to construct sanitary sewer, shall not be assessed a sewer betterment fee but shall be assessed a sewer privilege fee on a per lot basis in lieu of a betterment. Such fee shall be assessed at the time that the subdivision dry sewer is connected to the main sewer and may be subject to apportionment. In addition, regardless of whether or not a subdivision is involved, any applicant for a sewer extension permit shall at the time such sewer extension is completed pay such privilege fee. The fee shall be determined by the Sewer Commission and shall not exceed one hundred (100) percent of the betterment for the most recent Town sewer project.

Section 4. Land not built upon; extension of time for assessment.

Any land not built upon at the time of a sewer betterment assessment may upon application of the landowner receive an extension of time for the payment of the assessment until the land is built upon. Interest at the rate of four (4) percent per year shall be paid annually upon the assessment from the time it was made. ARTICLE XXI

GENERAL WETLANDS PROTECTION

SECTION 1: PURPOSE. The purpose of this bylaw is to protect the wetlands, related water resources, and adjoining land areas in the Town of Lunenburg by prior review and control of activities deemed by the Conservation Commission likely to have a significant or cumulative effect upon wetland values, including but not limited to the following: public or private water supply, ground water, flood control, erosion and sedimentation control, storm damage prevention, water quality, water pollution control, fisheries, shellfish, wildlife habitat, rare species habitat including rare plant species, agriculture, aquaculture and recreation values deemed important to the community (collectively, the "wetland values protected by this bylaw"). This bylaw is intended to utilize the Home Rule authority of this municipality to protect additional standards and procedures stricter than those of the Wetlands Protection Act, G.L.Ch. 131, s.40 and Regulations thereunder, 310 CMR 10.00.

SECTION 2: JURISDICTION. Except as permitted by the Conservation Commission or as provided in this bylaw, no person shall commence to remove, fill, dredge, build upon, degrade, discharge into, or alter the following resource areas: any freshwater wetlands; marshes; wet meadows; bogs; swamps; vernal pools; banks; reservoirs; lakes; ponds of any size; creeks; beaches; lands under waterbodies; lands subject to flooding or inundation by groundwater or surface water; lands subject to flooding; lands within 100 feet of any of the aforesaid resource areas; perennial rivers and streams and lands within 200 feet of such rivers and streams (collectively the "resource areas protected by this bylaw"). Said resource areas shall be protected whether or not they border surface waters.

SECTION 3: CONDITIONAL EXEMPTIONS. The permit and application required by this bylaw shall not be required for maintaining, repairing, or replacing, but not substantially changing or enlarging, and existing and lawfully located structure or facility used in the service of the public to provided electric, gas, water, telephone, telegraph or other telecommunication provided that written notice has been given to the Commission prior to commencement of work, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission.

The application and permit required by this bylaw shall not be required for work performed for normal maintenance or improvement of land which is lawfully in agricultural use at the time the work takes place, provided that written notice has been given to the Commission prior to commencement of work, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission.

The permit and application required by this bylaw shall not apply to emergency projects necessary for the protection of the health or safety of the public, provided that the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof; provided that advance notice, oral or written, has been given to the Commission prior to commencement of work or within 24 hours after commencement; provided that the Conservation Commission or its agent certifies the work as an emergency project provided that the work is performed only for the time and place certified by the

Commission for the limited purposes necessary to abate the emergency; and provided that within 21 days of commencement of an emergency project a permit application shall be filed with the Commission for review as provided in this bylaw. Upon failure to meeting these and other requirements of the Commission, the Commission may, after notice and a public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.

Other than stated in this section the exemptions provided in the Wetlands Protection Act, G.L.Ch.131, s.40, and Regulations, 310 CMR 10.00, shall not apply.

SECTION 4: APPLICATIONS FOR PERMITS AND REQUESTS FOR DETERMINATION. Written application shall be filed with the Commission to perform activities affecting resource areas protected by this bylaw. The permit application shall include such information and plans as are deemed necessary by the Commission to describe proposed activities and their effects on the resource areas protected by this bylaw. No activities shall commence without receiving and complying with a permit issued pursuant to this bylaw.

The Commission in an appropriate case may accept as the permit application and plans under this bylaw the Notice of Intent and plans filed under the Wetlands Protection Act, G.L. Ch. 131, s.40, and Regulations, 310 CMR 10.00.

Any person desiring to know whether or not a proposed activity or an area is subject to this bylaw may in writing request a determination from the Commission. Such a Request for Determination (RFD) shall include information and plans as are deemed necessary by the Commission.

At the time of a permit application or RFD, or application for Certificate of Compliance, the applicant shall pay a filing fee specified in Regulations of the Commission. The fee is in addition to that required by the Wetlands Protection Act, G.L.Ch.131 s.40 and Regulations, 310 CMR 10.00.

Upon receipt of a permit application or RFD, the Commission is authorized to require an applicant to pay a fee for the reasonable costs and expenses borne by the Commission for specific expert engineering and other consultant services deemed necessary by the commission to come to a final decision on the application. This fee is called the "consultant fee." The specific consultant services may include, but are not limited to, performing or verifying the accuracy of a resource area survey and delineation, analysis of resource area functions, including wildlife habitat evaluations, hydro geologic and drainage analysis, and environmental or land use law.

The Commission may waive the filing fee, consultant fee, and costs and expenses for an application or RFD filed by a government agency.

The Commission may require the payment of the consultant fee at any point in its deliberations prior to a final decision. The applicant shall pay the fee to be put into a revolving fund which may be drawn upon by the Commission for specific consultant services approved by the Commission at one of its public meetings. **This revolving account shall be**

authorized annually and the amount expended by the Commission from this fund shall be limited for the ensuing fiscal year.

The exercise of discretion by the Commission in making its determination to require the payment of a consultant fee shall be based on its reasonable finding that additional information acquirable only through outside consultants would be necessary for the making of an objective decision.

The Commission shall return any unused portion of the consultant fee to the applicant unless the Commission decides at a public meeting that other action is necessary. Any applicant aggrieved by the imposition of, or size of, the consultant fee, or any act related thereto, may appeal according to the provisions of the Massachusetts General Laws.

The maximum consultant fee charged to reimburse the Commission for reasonable costs and expensed shall be according to the following schedule:

| Project Cost | Maximum Fee |
|----------------------------|-------------|
| Up to \$100,000 | \$500 |
| \$100,001 to \$500,000 | \$2,500 |
| \$500,001 to \$1,000,000 | \$5,000 |
| \$1,000,001 to \$1,500,000 | \$7,500 |
| \$1,500,001 to \$2,000,000 | \$10,000 |

Each additional \$500,000 project cost increment (over \$2,000,000) shall be charged at an additional \$2,500 maximum fee per increment.

The project cost means the estimated, entire cost of the project including, but not limited to, building construction, site preparation, landscaping, and all site improvements. The consultant fee shall be paid pro rata for that portion of the project applicable to those activities within resource areas protected by this bylaw. The project shall not be segmented to avoid being subject to the consultant fee. The applicant shall submit estimated project costs at the Commission's request, but the lack of such estimated project costs shall not avoid the payment of the consultant fee.

SECTION 5: NOTICE OF HEARINGS. Any person filing an application or RFD with the Commission at the same time shall give written notice thereof, by certified mail (return receipt requested) or hand delivery, to all abutters according to the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, including any in another municipality or across a body of water. The notice to abutters shall enclose a copy of the permit application or request, with plans, or shall state where copies may be examined and obtained by abutters. An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. When a person requesting a determination is other than the owner, the request, the notice of the hearing, and the determination itself shall be sent by the Commission to the owner as well as to the person making the request.

The Commission shall conduct a public hearing on any application or RFD, with written notice given at the expense of the applicant, five business days prior to the hearing, in a newspaper of general circulation in the municipality.

The Commission shall commence the public hearing within 21 days from receipt of a completed application or request for determination unless an extension is authorized in writing by the applicant.

The Commission shall issue its permit or determination in writing within 21 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.

The Commission in an appropriate case may combine its hearing under this bylaw with the hearing conducted under the Wetlands Protection Act, G.L. Ch. 131, s. 40, and Regulations, 310 CMR 10.00.

The Commission shall have authority to continue the hearing to a certain date announced at the hearing, for reasons stated at the hearing, which may include receipt of additional information from the applicant or others deemed necessary by the Commission in its discretion, or comments and recommendations of boards and officials listed in Section 6.

SECTION 6: COORDINATION WITH OTHER BOARDS. Any person filing a Wetlands Protection Act Permit with the Commission shall provide written notice thereof at the same time, by certified mail or hand delivery, to the Board of Selectmen, Planning Board, Zoning Board of Appeals, Board of Health and Building Inspector. The Commission shall not take final action until such boards and officials have had fourteen (14) days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account, but which shall not be binding on the Commission. The applicant shall have the right to receive any such comments and recommendations, and to respond to them at a hearing of the Commission, prior to final action.

SECTION 7: PERMITS AND CONDITIONS. If the Commission, after a public hearing, determines that the activities which are subject to the permit application or the land and water uses which will result therefrom are likely to have a significant or cumulative effect upon the resource area values protected by this bylaw, the Commission, within 21 days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions which the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions. The Commission shall take into account the cumulative adverse effects of loss, degradation, isolation, and replication of protected resource areas throughout the community and the watershed, resulting from past activities permitted and exempt, and foreseeable future activities.

The Commission is empowered to deny a permit for failure to meet the requirement of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the resource area values protected by this bylaw, and where no conditions are adequate to protect those values. Due consideration shall be given to any

demonstrated hardship on the applicant by reason of denial, as presented at the public hearing.

Lands within 100 feet of specific resource areas, and within 200 feet of rivers and streams, are presumed important to the protection of these resources because activities undertaken in close proximity to wetlands and other resources have a high likelihood of adverse impacts upon them, either immediately as a consequence of construction, or over time as a consequence of daily operation or existence of the activities. These adverse impacts from construction and use can include, without limitation, erosion, siltation, loss of groundwater recharge, poor water quality, and loss of wildlife habitat. The Commission therefore may require that the applicant maintain a strip of continuous, undisturbed vegetative cover within aforesaid 100-foot or 200-foot area, unless the applicant convinces the Commission that the area or part of it may be disturbed without harm to the values protected by the bylaw.

In the case of areas within 200 feet of rivers and streams, no permit issued hereunder shall permit any activities unless the applicant, in addition to meeting the otherwise applicable requirements of this bylaw, has proved by a preponderance of evidence that (1) there is no practicable alternative to the proposed project with less adverse impacts, and, as well, should there be no such practicable alternative, (2) such activities, including proposed mitigation measures, will have no significant adverse impact on the areas or values protected by this bylaw. The Commission shall regard as practicable an alternative which is reasonably available and capable of being done after taking into consideration the proposed property use, overall project purposes, logistics, existing technology, costs of the alternatives, and overall project costs.

To prevent wetlands loss, the Commission shall require applicants to avoid wetlands alteration wherever feasible, shall minimize wetlands alteration, and where alteration is unavoidable, shall require full mitigation. The Commission may authorize or require replication of wetlands as a form of mitigation, but only with adequate security, professional design, and monitoring to assure success, because of the high likelihood of failure of replication.

A permit shall expire three years from the date of issuance. Notwithstanding the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Any permit may be renewed once for an additional one year period, provided that a request for a renewal is received in writing by the Commission prior to expiration. Notwithstanding the above, a permit may contain requirements which shall be enforceable for a stated number of years, indefinitely, or until permanent protection is in place, and shall apply to all owners of the land.

For good cause the Commission may revoke or modify a permit or determination issued under this bylaw after notice to the holder of the permit or determination, notice to the public, abutters and town boards, pursuant to secs. 5 and 6, and a public hearing.

No work proposed in any permit application shall be undertaken until the permit issued by the Commission with respect to such work has been recorded in the registry of deeds or, if the land affected is registered land, in the registry section of the land court for the district

wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the permit has been recorded.

SECTION 8: REGULATIONS. After public notice and public hearing, the Commission shall promulgate rules and regulations to effectuate the purposes of this bylaw. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw.

At a minimum these regulations shall define key terms in this bylaw not inconsistent with the bylaw and procedures governing the amount and filing of fees.

SECTION 9: DEFINITIONS. The following definitions shall apply in the interpretation and implementation of this bylaw.

The term "bank" shall include the land area which normally abuts and confines a water body, the lower boundary being the mean annual low flow level, and the upper boundary being the first observable break in slope or the mean annual flood level, whichever is higher.

The term "vernal pool" shall include a confined basin depression which, at least in most years, holds water for a minimum of two continuous months during the spring and/or summer, and which is free of adult fish populations, as well as the area within 100 feet of the mean annual boundary of such a depression, regardless of whether the site has been certified by the Massachusetts Division of Fisheries and Wildlife.

The term "rare species" shall include, without limitation, all vertebrate and invertebrate animal and plant species listed as endangered, threatened, or of special concern by the Massachusetts Division of Fisheries and Wildlife, regardless of whether the site in which they occur has been previously identified by the Division.

The term "person" shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof to the extent subject to town bylaws, administrative agency, public or quasi-public corporation or body, this municipality, and any other legal entity, its legal representatives, agents or assigns.

The term "alter" shall include, without limitation, the following:

- (a) Removal, excavation or dredging of soil, sand gravel, or aggregate materials of any kind.
- (b) Changing of preexisting drainage characteristics, flushing characteristics, salinity distribution, sedimentation patterns, flow patterns, or flood retention characteristics.
- (c) Drainage or other disturbance of water level or water table.
- (d) Dumping, discharging or filling with any material which may degrade water quality.
- (e) Placing of fill, or removal of material, which would alter elevation.
- (f) Driving of piles, erection or repair of buildings, or structures of any kind.
- (g) Placing of obstructions or objects in water.
- (h) Destruction of plant life including cutting of trees.
- (i) Changing water temperature, biochemical oxygen demand, or other physical, biological, or chemical characteristics of water.

- (j) Any activities, changes or work which may cause or tend to contribute to pollution of any body of water or groundwater.
- (k) Application of pesticides or herbicides.
- (l) Incremental activities which have, or may have, a cumulative adverse impact on the resource areas protected by this bylaw.

SECTION 10: SECURITY. As part of a permit issued under this bylaw, in addition to any security required by any other municipal or state board, agency or official, the Commission may require that the performance and observance of the conditions imposed thereunder (including conditions requiring mitigation work) be secured wholly or in part by one or more of the methods described below:

- (a) By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in whole or in part upon issuance of a Certificate of Compliance for work performed pursuant to the permit;
- (b) By accepting a conservation restriction, easement or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of this municipality whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed. This method shall be used only with the consent of the applicant.

SECTION 11: ENFORCEMENT. No person shall remove, fill, dredge, build upon, degrade, or otherwise alter resource areas protected by this bylaw, or cause, suffer, or allow such activity, or leave in place unauthorized fill, or otherwise fail to restore illegally altered land to its original condition, or fail to comply with a permit or an enforcement order issued pursuant to this bylaw.

The Commission, its agents, officers, and employees shall have authority to enter upon privately owned land for the purpose of performing their duties under this bylaw and may make or cause to be made such examinations, surveys or sampling as the Commission deems necessary, subject to the constitutions and laws of the United States and the Commonwealth.

The Commission shall have authority to enforce this bylaw, its regulations, and permits issued thereunder by violation notices, administrative orders, and civil and criminal court actions. Any person who violates provisions of this bylaw may be ordered to restore the property to its original condition and take other action deemed necessary to remedy such violations, or may be fined, or both.

Upon request of the Commission, the Board of Selectmen and the Town Counsel shall take legal action for enforcement under civil law. Upon request of the Commission, the chief of police shall take legal action for enforcement under criminal law.

Municipal boards and officer, including any police officer or other officer having police powers, shall have authority to assist the Commission in enforcement.

Any person who violates any provision of this bylaw, or permits, or administrative orders issued thereunder, shall be punished by a fine of up to \$300.00. Each day or portion thereof during which a violation continues shall constitute a separate offense, and each provision of

the bylaw, regulations, permits, or administrative orders violated shall constitute a separate offense. As an alternative to criminal prosecution in a specific case, the Commission may issue citations under the non-criminal disposition procedure set forth in G.L. 40, s. 21D.

SECTION 12: BURDEN OF PROOF. The applicant for a permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the application will not have unacceptable significant or cumulative effect upon the wetland values protected by this bylaw. Failure to provide adequate evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

SECTION 13: APPEALS. A decision of the Commission shall be reviewable in the Superior Court in accordance with G.L. Ch.249, s.4.

SECTION 14: RELATION TO THE WETLANDS PROTECTION ACT. This bylaw is adopted under the Home Rule Amendment of the Massachusetts Constitution and the Home Rule statutes, independent of the Wetlands Protection Act, G.L. c. 131, Section 40, and Regulations CMA 10.00 thereunder.

SECTION 15: SEVERABILITY. The invalidity of any section or provision of this bylaw shall not invalidate any other section or provision thereof, nor shall it invalidate any permit or determination which previously has been issued. (May 14, 1988 SP.T.M. Art 3)(1998 ATM Art. 16)

ARTICLE XXII BOARD OF HEALTH

SECTION 1. Composition - There shall be a Board of Health which shall consist of five members. The terms of office shall be so arranged that the terms of as nearly an equal number of members as is possible shall expire each year. (ATM 2008)

SECTION 2. Powers and Duties - The board of health shall be responsible for the formulation and enforcement of local rules and regulations affecting the environment and the public health and for the enforcement within the town of all state statutes and the provisions of the code of Massachusetts regulations affecting the public health. The board of health shall have all the other powers, and responsibilities given to boards of health by general laws.

The committee shall issue a recommendation on all computer related purchases in excess of five thousand dollars.

SECTION 2. This Committee shall also provide technical assistance to the Town Technology department and other Town departments as applicable. (5/1/04)

ARTICLE XXIV SEWER USE REGULATIONS

SECTION 1. (a) Notwithstanding chapter 83 of the General Laws or any other general or special law to the contrary, this act shall be the sewer by-law of the town of Lunenburg.

SECTION 2. For the purposes of this act, the following words shall have the following meanings unless the context clearly requires otherwise:

“Available capacity”, flow that is available via intermunicipal agreement or other sources that has not been previously allocated by the sewer commission.

“Bisected lot”, property in which the line defining the sewer service area passes through the lot.

“Commission”, the board of sewer commissioners.

“Protective by-law”, the zoning by-law of the town of Lunenburg.

“Reserve capacity”, the flow capacity reserved for use by property owners along the sewer ways.

“Sewer service area”, the geographical areas of the Lunenburg sewer service area with boundaries as delineated on the sewer service area map.

“Sewer service area map”, the map approved by the town meeting vote on May 2, 2009, as may be amended from time to time by vote of the town meeting, delineating the sewer service area and sewer service zones.

“Sewer service zone”, an area located within the sewer service area and delineated on the sewer service area map.

1.0 PURPOSE.

It shall be the purpose of this by-law to regulate the connections to and extensions of the town’s sewer system in order to preserve and manage limited treatment capacity pursuant to intermunicipal agreements. Priority shall be given to providing solutions for wastewater problems within the sewer service area including, but not limited to, failed septic systems with poor site conditions for upgrades.

2.0 SEWER SERVICE AREA.

The town of Lunenburg, acting by and through the commission, may lay out, plan, construct, maintain and operate a system of common sewers within the sewer service area. The provision of sewer service within the sewer service area shall be under the jurisdiction and control of the commission. No person shall extend or construct a sanitary sewer intended to be connected to a municipal common sewer to serve property, or any portion of a property, located outside the designated sewer service area. Prior to the initiation of a sewer project in any sewer service zone and prior to submitting an appropriation request to the town, the sewer commission shall survey the landowners in the sewer service area to determine whether a minimum of 2/3 of all affected owners support the installation of sewer service.

3.0 CONNECTION ELIGIBILITY.

Developed parcels of land or portions of parcels of land located within a sewer service zone that abut a public way in which a sewer has been laid shall be eligible to connect existing buildings to the sanitary sewer unless the property is subject to a waiver deed restriction. Any undeveloped single family, commercial or industrial lot or any undeveloped parcel of land created out of a pre-existing developed lot, provided that it has at least 50 feet

of frontage along the sewer way located within the sewer district and conforms to the Lunenburg protective by-law, shall be eligible to connect and shall be limited to 330 gallons per day of capacity. Additional capacity for those parcels may be granted by a majority vote of the sewer commission, subject to available capacity. No property or portion of a property, located outside of service zones shall be allowed to extend or construct a sanitary sewer. A lot bisected by a sewer service zone boundary line shall only install a sewer connection that serves buildings that are located within the sewer service zone lines.

Sewer connections shall be located entirely on the property they are to serve. The connection must enter the property directly from the public way in which the sewer is located. No connections shall be allowed via an easement. A sewer line must remain within the parcel that it serves.

4.0 SEWER EXTENSIONS.

Owners of parcels of land or portion of parcels of land located within the sewer service area not presently served by sewer may extend the existing sewer system to serve those parcels but such extension shall be at the discretion of the commission, subject to available capacity, and only if otherwise in compliance with law and with the conditions of any permits. Prior to granting approval for a sewer extension, the commission may require the applicant to supply, at the applicant's own cost and expense, maps, plans, reports, specifications and other data which properly describe the proposed work. All development and construction shall be monitored in accordance with the "Monitoring and Inspection Procedures and Fee System of the Lunenburg Sewer Commission". Upon approval and prior to the commencement of work, the applicant may be required to post bonds, undertakings, guaranties and insurance policies in forms and amounts acceptable to the commission to guarantee completion of the proposed work and restoration and to indemnify and save harmless the town of Lunenburg and its officers, agents, servants and employees from damage or loss arising out of or in connection with the work.

5.0 RESERVE CAPACITY.

At the time of finalization of the betterment for a sewer project, the 100 per cent build out utilization capacity shall be established consistent with the number of assessments and capacity allotment. Ninety per cent of that total capacity shall be held in reserve by the commission for future use by the assessed properties that are equitably entitled to such capacity.

6.0 ALLOCATION OF CAPACITY FOR CHANGE OR EXPANSION OF USE IN EXISTING FACILITIES.

The commission may allow for increased allocation for the change of use, or expansion of use which results in an increased sewage design flow, in existing facilities within the sewer service area, subject to available capacity and subject to the assessment of privilege fees by the commission under sections 17 and 20 of chapter 83 of the General Laws. For the purposes of this section and section 7.0, a "change of use" or "expansion of a preexisting use" shall mean any undertaking on a property, whether involving material changes to structures or not, which results in an increase of design flow on the property from the existing conditions pursuant to 310 CMR 15.000.

7.0 APPROVAL REQUIRED FOR CHANGE OR EXPANSION OF PROPERTY USE.

Any proposed change of use or expansion of preexisting use which results in an increase in flow allocation or change in type of flow including, but not limited to, residential to commercial, or commercial to industrial, for a property within the sewer service area shall be reviewed by the commission. An application completed by the property owner on a form approved by the commission shall accurately and completely indicate the existing use and the proposed use and the associated flows calculated pursuant to the Title V of 310 C.M.R. 15.000. At the discretion of the commission, applications may be approved by the commission based on available capacity.

8.0 ABANDONMENT OF SEPTIC SYSTEMS AT PROPERTIES TO BE SERVED BY MUNICIPAL SEWER.

Within 30 days after connection to the sewer system, the on-site subsurface sewage disposal system shall be abandoned in accordance with the Lunenburg board of health regulations and Title V of 310 C.M.R. 15.000.

9.0 AMENDMENTS TO BY-LAW.

This by-law may be amended by vote of the Lunenburg town meeting in the same manner that other general by-laws of the town may be amended.

Approved July 26, 2010.

RIGHT TO FARM

Section 1. Legislative Purpose and Intent. The purpose and intent of the Bylaw is to state with emphasis the Right to Farm accorded to all citizens of the Commonwealth under Article 97, of the Constitution, and all state statutes and regulations thereunder including but not limited to Massachusetts General Laws, Chapter 40A, Section 3, Paragraph 1; Chapter 90, Section 9; Chapter 11, Section 125A and Chapter 128, Section 1A. We the citizens of Lunenburg restate and republish these rights pursuant to the Town's authority conferred by Article 89 of the Articles of Amendment of the Massachusetts Constitution, ("Home Rule Amendment"). This General Bylaw encourages the pursuit of agriculture, promotes agriculture-based economic opportunities, and protects farmlands within the Town of Lunenburg by allowing agricultural uses and related activities to function with minimal conflict with abutters and local agencies. This Bylaw shall apply to all jurisdictional areas within the Town.

The above described agricultural activities may occur on holidays, weekdays and weekends by night or day and shall include the incidental noise, odors, dust and fumes associated with normally accepted agricultural practices. The benefits and protections of the Bylaw are intended to apply *exclusively* to those *commercial* agricultural and farming operations and activities conducted in accordance with generally accepted agricultural practices. Moreover, nothing in this Right-to-Farm Bylaw shall be deemed as acquiring any interest in land, or as imposing any land use regulation, which is properly the subject of state statute, regulation or local zoning law.

Section 4. Disclosure Notification. In order to ensure that prospective owners and prospective tenants are aware of the policy of the Town of Lunenburg expressed in this Bylaw regarding agricultural uses *and practices*, the following notification of this policy shall prominently posted in the Town Hall within 30 days of this Bylaw becoming effective. "This notification is to inform persons and entities who are about to acquire or lease rental property within the Town of Lunenburg that it is the policy of the Town of Lunenburg to conserve, protect and encourage the maintenance and improvement of the agricultural land, for the production of food and other agricultural products and for the preservation of its natural and ecological value. This notification is to further inform such owners and entities that farming activities, including the raising and keeping of livestock, take place in the Town of Lunenburg and that such activities may cause or create noise, *dust* and odors which adversely impact or are incompatible with the use or enjoyment of the property within the Town, including the property about to be acquired or leased."

Property owners should make efforts to inform prospective tenants or buyers that Lunenburg is a Right-to-Farm community. In addition, the notification language required by this section shall appear annually in the Town's Annual Report.

Section 5. Resolution of Disputes. Any person who seeks to complain about the operation of a farm may, notwithstanding pursuing any other available remedy, file a grievance with the Select Board, the Zoning Enforcement Officer, or the Board of Health, depending on the nature of the grievance. The filing of the grievance does not suspend the time within which to pursue any other available remedies that the aggrieved may have. The Zoning Enforcement Officer or Select Board shall forward a copy of the grievance to the Agricultural Commission or its agent, which shall review and facilitate the resolution of the grievance, and report its recommendations to the referring Town authority within an agreed upon time frame. The Board of Health, except in case of imminent danger or public health risk, may forward a copy of the grievance to the Agricultural Commission or its agent, which shall review and facilitate the resolution of the grievance, and report its recommendations to the Board of Health within an agreed upon time frame.

Section 6. Severability Clause. If any part of the Bylaw is for any reason held to be unconstitutional or invalid, such decision shall not affect the remainder of the Bylaw. The Town of Lunenburg hereby declares the provisions of this Bylaw to be severable.

Section 3: Designation of Architectural Preservation District (APD)

The APD shall, by Town Meeting vote, encompass the areas shown on the map entitled "*Town of Lunenburg Architectural Preservation District* (voted 5/16)," and appended to this bylaw. Amendments to the district boundaries may be made only by vote of Town Meeting.

Section 4: Architectural Preservation District Commission (APDC)

The Board of Selectmen shall appoint a **five-member** APDC to oversee the APD pursuant to this bylaw. Initially, two members shall be appointed for one year, two for two years, and one for three years; each successive appointment shall be made for three years. The Board of Selectmen may also appoint up to two alternate members, initially for terms of one, two and three years, and for three-year terms thereafter. If members are absent, unable to act, or recused from voting due to a conflict of interest, the APDC chair may designate one or both of the alternate members to serve in their place. To the extent achievable, the APDC shall be comprised of the following persons: a member of the Lunenburg Historical Commission; a design professional; a craftsman or building contractor familiar with historic restoration; and *one* resident of the APD and one resident at large. Members and alternates of the APDC shall by reason of experience and/or education have demonstrable knowledge, interest, and ability to effectively carry out the APDC's responsibilities.

Section 5: APDC Powers and Duties

The APDC shall exercise its powers in reviewing the alteration (substantial or minor), including demolition of contributing properties within the APD as set forth in this bylaw, and in accordance with the standards described in Section 9. Within 180 days of its establishment, the APDC shall adopt design guidelines to assist the APDC in determining whether the proposal satisfies the standards described in Section 9, as well as to facilitate owner understanding of, and compliance with, those standards. The APDC may also promulgate rules and regulations consistent with the provisions of this bylaw, or set forth such forms and procedures as it deems appropriate for the regulation of its affairs and the conduct of its business, including requirements for the contents and form of applications for certificates, hearing procedures and other matters. In adopting design guidelines and rules and regulations, including any subsequent amendments, the APDC shall first hold a duly posted public hearing advertised at least fourteen (14) days in advance within a newspaper of local circulation. The APDC shall not adopt or amend any design guidelines or rules and regulations until at least 35 days after the APDC has provided a copy of those proposed guidelines or rules and regulations to the Board of Selectmen.

Section 6: Exemptions

Section 7: Administrative Review/Determination of Applicability

Minor alterations such as like for like replacement of architectural features and other minor work (as outlined in the APDC regulations) shall be reviewed through this process to ensure consistency of the property's character and appropriateness of the proposed materials. The APDC shall make a determination that the proposed work is exempt or that it does not retain the character of the Contributing Property. In the case where the work does not retain the character of the Contributing Property it shall be determined to equate to a substantial alteration and require a binding review per Section 8 of this Bylaw. Property owners considering substantial alterations to a Contributing Property are strongly encouraged, but not required, to request an Administrative Review from the APDC. This review would focus on directing the applicant toward developing a proposal that would be compliant with the Binding Review Process in Section 8.

Administrative Review does not require a public hearing and can be requested electronically. In providing Administrative Review for a proposed Alteration, the APDC shall make a finding as to whether or not the proposed Alteration is compatible with the standards in Section 9 and the associated design guidelines. The APDC shall provide its finding in writing, as a Negative Determination or a Requirement of Binding Review, and within 45 days of receiving a request for Administrative Review. The Requirement of Binding Review may include recommendations on how the proposed Alteration could be made more consistent with the standards and the design guidelines.

Section 8: Binding Review

The following Alterations require the submittal of an application for binding review by the APDC:

- (a) Demolition of all or a part of a Contributing Property.
- (b) Substantial Alterations to a Contributing Property.

Applications should include a completed application form and photographs showing existing buildings and site conditions. For substantial alteration, including additions and demolition, applicants should also provide building elevations showing the proposed configuration and building materials; a plan showing the approximate footprint and relationships of buildings to other structures, exterior circulation, and points of entry; and any other plans which may help to demonstrate the proposed building design. Applications can be submitted electronically, but applicants shall also provide one hard copy of the application to the Planning Office. If appropriate, the APDC may waive any or all of the requirements for design submittal and review.

Within *forty-five* (45) days of the application submittal, a copy of which shall be filed with the Town Clerk, the APDC shall hold a public hearing on the application, said hearing to be noticed by an ad published at least once in a newspaper with local circulation fourteen (14) days or more before the hearing. Following the hearing, the APDC shall determine whether or not the proposed Alteration is consistent with the standards set forth in Section 9 and the associated design guidelines. If the APDC determines by majority vote that the Alteration adheres to the standards and the design guidelines, it shall issue a Certificate to Alter, which may be subject to reasonable conditions that the APDC deems necessary and appropriate. If the APDC does not achieve a majority vote that the Alteration is compatible with the standards and the design guidelines, it shall make a negative determination. The APDC's written determination shall be submitted to the property owner within twenty (20) days of the close of the public hearing, and no later than ninety (90) days after the submittal of an application, unless granted a time extension by the owner. In making its determination, the APDC shall provide a rationale for its action, including a description of how the alteration does or does not meet the standards set forth in Section 9 and the design guidelines. If the APDC denies a Certificate to Alter, it may include non-binding advisory only, recommendations on how the proposed Alterations may be modified to satisfy the APDC. Once the applicant modifies the Alterations in a manner that the APDC finds acceptable, the APDC shall issue a Certificate to Alter. The determinations of the APDC relative to Alterations described in this Section 8, whether positive or negative, shall be binding on the applicant.

Section 9: Design Standards When reviewing an application, the APDC shall consider the following standards, which are intended to guide the property owner in the site development and building design, as well as the APDC in its review of proposed actions as described in Section 8 above:

- (a) **Height and Proportions** – The height, proportions, and relationship of height to width between windows, doors, signs and other architectural elements should be compatible with the architectural style and character of the building or structure.
- (b) **Relation of Structures and Spaces** – The relation of a structure to the open space between it and adjoining structures should be compatible with such relationships in the district.
- (c) **Shape** – The shape of roofs, windows, doors and other design elements should be compatible with the architectural style and character of the building.
- (d) **Scale** – The scale of a structure alteration should be compatible with its architectural design style and character and that of the district.
- (e) **Directional Expression** – Building facades and other architectural design elements should be compatible with those of others in the district with regard to the dominant vertical or horizontal expression or direction related to use and historical or cultural character, as appropriate.

(f) **Garages and Accessory Buildings** – Garages and accessory buildings shall be sensitively integrated into the overall development, and should not be the predominant design feature when viewed from the street.

(g) **Materials & Methods of Construction** – Materials used shall be consistent with the appearance and character of the surrounding properties and contribute to historic nature of the area. Construction methods shall meet Building Code requirements and visually resemble historic patterns but may use contemporary technology.

Section 10: Procedures for Issuance and Filing of APDC Determinations: Each Certificate to Alter or negative determination issued by the APDC shall be dated and signed by its chair or such other person designated by the APDC to sign certificates on its behalf. The APDC shall send a written copy of its actions to the property owner and shall file other copies with the office of the Town Clerk and the Building Inspector. The date of issuance of a certificate or negative determination shall be the date of its filing of other said copy with the office of the Town Clerk. If the APDC should fail to submit a written determination within twenty (20) days of closing its public hearing, or within ninety (90) days of the submittal of a Certificate, or within such further time as the applicant may allow in writing, a Certificate to Alter shall be waived in favor of the property owner.

Section 11: Enforcement In addition to the duties previously set forth in this Bylaw, the APDC or the Building Inspector shall issue enforcement orders, with an immediate cease and desist order directing compliance with this Bylaw and shall undertake any other enforcement authorized by law.

Upon request of APDC, and with the approval of the Board of Selectmen, the Town Counsel shall take legal action on behalf of the Town for enforcement of this Bylaw, or any order issued hereunder, in any court of competent jurisdiction.

In the case of demolition, including demolition by neglect, without approval of the APDC no building permit shall be issued with respect to any Contributing Property within the APD that caused a demolition of its building, structure or Contributing Property for a period of up to two (2) years after the date of the violation.

The APDC or its designee may use any and all of the aforementioned enforcement methods to address the contributing factors of demolition by neglect for purposes of preventing a Contributing Property from becoming structurally deficient or economically infeasible to repair.

Section 12: Coordination with Other Town Boards and Bylaws

(a) Except as stated in "(b)" below, the APDC's authority as established in this bylaw shall not supersede or interfere with the regulatory authority of other local or state boards or APDCs.

(b) By exercise of this bylaw, the APDC assumes the authority of the Lunenburg Historical Commission pursuant to Chapter XVI of these General Bylaws, relative to the proposed demolition (including demolition by neglect) of buildings that are over 75 years of age and located within the APD.

(c) The APDC shall coordinate its review with that of other Town Boards.

(d) The APDC shall be included as an advisory review entity in new construction projects *in the APD*.

Section 13: Appeal Procedure

Any aggrieved party may appeal the action of the APDC in accordance with the General Laws.

Section 14: Validity and Separability

The provisions of this bylaw shall be deemed to be separable. If any of its provisions, sections, subsections, sentences or clauses shall be held to be invalid or unconstitutional by any court of competent jurisdiction, the remainder of this bylaw shall continue to be in full force and effect.

Persons who engage in or carry on the business of lending money on mortgages, deposits or pledges of wearing apparel, jewelry, ornaments, household goods or other personal property, or of purchasing such property on condition of selling the same back again at a stipulated price, when the property so

mortgaged, pledged or purchased is deposited with the lender, must be licensed as pawnbrokers. This provision, however, does not apply to loans made on stocks, bonds, notes or other written or printed evidence of ownership of property or of indebtedness to the holder or owner of such securities. (M.G.L. c. 140, § 70 – 85)

Section II. Interest Rates

- B. No such pawnbrokers shall charge or receive any greater rate of interest, and interest shall be determined on the precise sum advanced by the lender.
- C. No pawnbroker shall make or receive any extra charge or fee for storage, care or safekeeping of any goods, articles or things pawned with him. (M.G.L. c. 140, § 78)

Section III. Police may enter and inspect premises and records

Any officer of the Lunenburg Police may at any time enter upon any premises used by a licensed pawnbroker or buyer for the purposes of his or her business, ascertain how he or she conducts his or her business and examine all articles taken in pawn or bought, or kept or stored in or upon said premises and all books and inventories shall be exhibited to any above name whenever a demand shall be made for such exhibition. - a) A violation of any section of this article.
- b) A violation of any provision of any statute or applicable law.

Article II. Sale, Exchange or Purchase of Metals

Section I. Findings

The Town of Lunenburg finds that there is a cognizable risk for stolen metals to end up in the possession of even legitimate businesses which trade in metals, including precious metals. Certain criminals bring stolen metals, including precious metals to dealers in jewelry and scrap metal. The victims of theft have only small hope of recovering their property unless the people and entities who receive scrap metals and jewelry are regulated in a manner which identifies both the metal received by the dealers and the persons who deliver the metal to these dealers. There is an Internet alert system used by the Lunenburg Police Department which reports stolen metals. Monitoring transactions within the town and identifying both the metals and the persons selling or delivering these metals will serve both to deter theft and to enable the Lunenburg Police Department to trace and recover stolen property and return it to the rightful owners.

Section II. Definitions

As used in Article II, the following terms shall have the meanings indicated:

ARTICLE: Any metal which is subject to Article II and is exchanged, sold, collected, bartered or received by a person dealing in metals.
